Hal Reid is now piling lumber in the sash, door and blind factory at Stillwater prison factory.

The Ada Index thinks that Comstock's high tariff views will do him no good in the congressional race.

Minneapolis saw something Tuesday which surprised the oldest inhabitants, which was the raiding of the gambling dens of that city. Seventeen dens, well up in society, were taken to the lock-up, and it is said that a minister was among the number.

The News now wants a chance to air Dr. Howes' record because he said something about Mr. Kindred. The paper should establish a "personal record" column, borrow the poll list and start in alphabetically, in order not to miss any one but the pets.

There is no use disguising the fact that much dissatisfaction prevails among the republicans of this city over the appointment of C. F. Kindred as organizer for Crow Wing county, on account of his record during the last campaign, during which he openly supported Dr. Ames for governor and H. C. Stivers for the legislature, as against Governor McGill and Leon E. Lum. But, as we understand it, Mr. Kindred's duties cease upon the organization of the club which was consummated on Tuesday evening. The manner in which the meeting was called has also caused much comment, but it is probable that at some future meeting steps will be taken to harmonize the discordant element thus made and the good work of organization will go on.

### THE MASTER STROKE.

The Daily News with a great flourish of trumpets and brass band accompaniment performed the great stroke of its life Tuesday evening when it intimated in a bullying way that if any creature dared open its mouth in opposition to the News or criticize its acts blood would flow galore, because "they were built that way." We are glad that this warning has been given in time for otherwise some body might have been hurt. The management feels itself a martyr in the great cause of journalism and seems to think that after a livelihood of about eight months in Brainerd, every mortal in the city should cringe and bow down to them. We never heard such a whine of despair as the wall that went out from the News office Tuesday evening, a poor whipped crow after indulging in a fight of his own making would not show the white feather to such an extent, even if he thought his betters had him downed.

### GEO. W. HOLLAND TALKS.

To a Star-News reporter Mr. Holland said Tuesday:  
"It is my opinion that, in case of the withdrawal of Hon. Knute Nelson from the political field, Judge O. P. Stearns, of the 11th judicial district and a resident of Duluth, will be the next republican nominee for the Fifth Congressional district. I have traveled pretty extensively through the northern part of the district during the winter, and everywhere I found a growing sentiment in favor of Judge Stearns, and I do not think that the republicans could put up a man that would serve the interests of the state better."

### WORK IN THE WOODS.

There is now three feet of snow in the woods on all the headwaters of the Mississippi, and although the loggers all declare that they will get their logs, the snow is certainly retarding operations. T. H. Shevelin had a letter from Crow Wing telling how four days had been necessary to make the trip from Kelly to Verndale. The snow is very badly drifted in that country. The men who are working in thin timber are faring badly, according to all reports, but where the timber is heavy far work is being done. Communication has been considerably interrupted since the late cold spell—Lumberman.

### MISS FENTON EXPLAINS.

Miss Eva Fenton, the leading lady in the Richard Foote company, called at the Times office on Monday, to correct the statement which has been going the rounds of the press, and was published in this paper last week, to the effect that she had attempted suicide, for love of Mr. Foote. Miss Fenton says, she took the poison, by mistake, and not with suicidal intent. She also says that up to the time of coming to Crookston she was still heart-free, but has seen so many marriagable young gentlemen here that her temptation to fall in love has been great. She is a native Minnesotan having attended school at Austin for a number of years, and some of her old school mates are now residents of this city.—Crookston Times.

### BRAINERD REPUBLICAN CLUB.

President—C. F. Kindred.

### THE WAY IT WORKS.

In past winters the railroads have experienced great difficulty in clearing their tracks, the old-fashioned wedge-like snow-plows being unequal to the task of cutting a passageway through. When the snow is mixed with sand it impacts so firmly that nothing but an ax or pick can move it. This forced the railroads to put on large forces of men, which proved expensive both in time and money. It has been a common thing for a road to be snowed under for a week or ten days at a time. This led the inventors to experimenting, and the result is the rotary steam snow shovel, says the Star, which is said to accomplish the work more satisfactorily than any other invention heretofore tried. It has no resemblance to the old snow-plow which was placed in front of one or more engines and forced through the snow. The rotary shovel cuts its way through the snow and ice and clears the track without the aid of an army of men with shovels. The keen blade or ice-cutter in front, in its rapid revolutions, cuts the ice or snow into small particles which are taken up by iron buckets or shovels and thrown with such force from the top of the shovel car as to give the road no more trouble. The power is obtained from an engine in the snow car, behind which is the locomotive or pusher. The Northern Pacific, with the rotary snow-shovel, cleared over 300 miles of track in Dakota of snow averaging 15 feet deep.

### P. T. BARNUM'S OWN GIFT.

Mr. P. T. Barnum, the famous showman, from the fact that his great story "My Plucky Boy Tom" has proved such an immense success in The New York Family Story Paper, has determined to present to all subscribers to that paper, while his story lasts, a beautiful souvenir in the shape of a Portfolio. This Portfolio contains illustrations of all the wild animals that will appear in his show the coming season. The New York Family Story Paper for four months and "Barnum's Portfolio," as this beautiful souvenir is called, will be sent to any address for the small sum of \$1.00, the regular price of the paper. This is certainly an opportunity which our readers should take advantage of. Address, Munroe's Publishing House, 24 & 26 Vandewater Street, New York.

"For heaven's sake, woman, silent!" he cried from his place in the corner.

The lady only shrieked then from fright the man was passing into a condition of courage.

"Be quiet, I tell you!"

"Oh, sir, for pity's sake!"

"Kill you, indeed! Confound me!—not going to hurt you."

This confirmed her worst suspicions. A burglar had invaded the room. She would have to do something. She looked, and her eyes were not fitted for a promenade in the halls.

But she could yell, and this succession of screams filled with that would have awakened them. They roused the house, and rapidly filled with frightened. Among them came the husband, a rosy bride. He had come to bed and not finding his spouse, he expected to, concluded she had been laid, friends, and himself into bed and went. ### Handling a Horse

Chicago Mail.

It isn't every man who knows how to handle a horse. It isn't every boy who does will tell you your schoolboy essay which declares that the horse is a noble animal, and that he has a great deal of him time at a window club watching people and the cursing or praising the forms

steeds. "I saw," he said, "the team the other day. The beauties in appearance, and the godlike in their action. They were the horses they drew was piled heavy lumber. It was a feat for any team. They were for an incline, and the driver was them the reins. He never was mouthed. He was the last. The horses were doing the best they like the choir in a Colorado band, and the driver knew it. His knowledge became sympathy. He ran like an electric current. He was the brains in the team. He communicated with the horses. He knew that a humane being was going to them, and they pulled with power that was magnificent. The driver had opened his mouth. He was the last. He was the last. He was the last. I wish every one has anything to do with a horse. I remember that a horse."

## Kindred and His Light.

Our gentle little friend, the Daily News,  
wants proof of the truth of our assertion  
that a better light than Mr. Kindred's  
can be furnished for \$80, and as good as  
one for \$60 each per year. Did it ever  
occur to the News that possibly there  
may be some doubt as to their right to  
make such a demand? We made the as-  
sertion that it could be done, and offered  
to do it. We begged the privilege of  
being heard before the council commit-  
tee, which was denied. Well, did Mr.  
Kindred know that we could do as we  
offered, and hence his haste, and hence  
the reason we were not granted the hearing.  
We offered to put a plan in on trial at  
\$80 per light, and here we have the  
offer. If upon trial they are not satis-  
fied, we will accept of the offer without ex-  
pense to the city. Can anything be  
fairer? If they are not so good a light,  
in all respects, as Mr. Kindred's, the city  
need not take them. We called atten-  
tion to the fact that Mr. Kindred was  
asking too much for his lights in the Dis-  
patch of Dec. 2, and urged the council  
to make a thorough investigation of the  
matter, and expressed the belief that if  
they would do so, they would do as many  
other cities are doing, put in a plan and  
let the people decide. And we called atten-
